

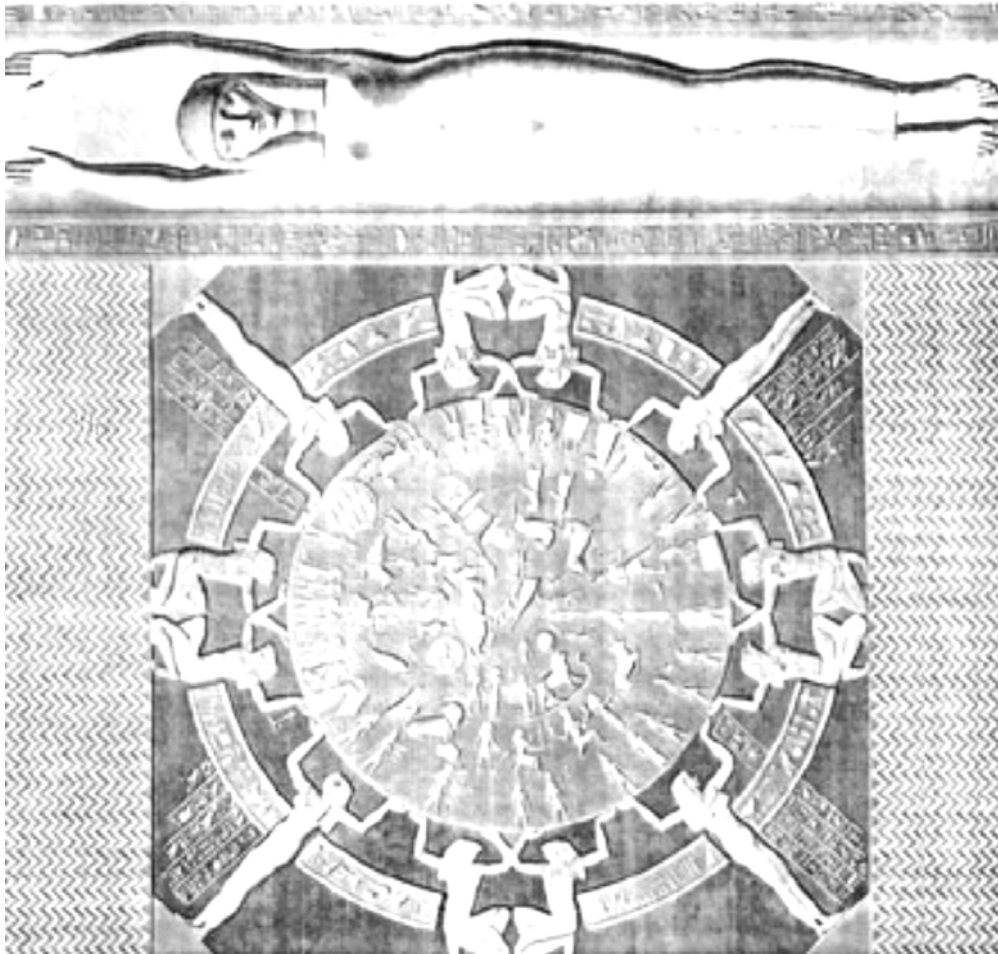

EXHIBIT I_A: Tentyra Temple Circular Zodiac - Record of Earth Pole Shifts

(Figures from pg. 108 of Peter Clayton's Rediscovery of Ancient Egypt (1982)
(copied from V. Denon's Description de l'Egypte 1809)

EXHIBIT NOTES:

- As its name implies the “**City of Middle Annu**” or **Tentyra (Dendera)** besides being the sixth nome capital in ancient Upper **Egypt/Kemit**, was a satellite enclave of the [Egyptian Mystery School of On](#) which was located in the “[City of North Annu \(On\).](#)” **Tentyra (Dendera)** Temple was dedicated to the [Goddess Het Heru \(Hathor\)](#) exoterically the goddess of fertility and the sky. **Esoterically** Hathor was the [Third Spiritual Plane Sun Goddess](#) of the **Egyptian Mystery School of On** spirituality system the [Aten Path](#). **Annu King Narmer** and [King Scorpion](#) as well as [Pharaoh Amenemhet III](#) wore cows tails and necklaces attesting to her spirituality.
- The esoteric history that the earth is presently upside down and off-axis was recorded in an original astronomical 36 star "decan" circular and concentric star map in the original **Hathor Temple** that dated back at least to the Fourth Dynasty rein of Pharaoh Khufu (circa 2613 to 2494 BC). The Ptolemy Greeks (350 –30 BC) rebuilt the temple on the old temple's foundation and modified the **original circular concentric star map with the 12 Greek Zodiac astrological signs**. Found by [Napoleone's Scientific Expedition to Egypt](#) at the end of the 19th Century in the ceiling of the **Hathor Temple** roof chapel it was dynamited off the ceiling and resides now in the Louvre Museum in Paris France.
- **Esoterically** within its 3 superimposed circular star maps are millions of years of history!

"This Zodiac, with its mysterious 3 Virgos between the Lion and Libra, has found its Edipus, who understand the riddle of these signs, and justified the truthfulness of those priests who told [Herodotus](#) in his Book II, paragraph 142 that:

- a. The [poles of the Earth and the Ecliptic](#) had formerly coincided;
- b. That ever since their first zodiacal records were commenced, the Poles have been 3 times within the plane of the Ecliptic, as the {[Egyptian Mystery School of On](#)} Initiates were taught." (M. Blavatsky, Secret Doctrine II, pg. 368).

This discussion continues on he next EXHIBIT I A-2.

EXHIBIT I_A-2: Tentyra Temple Circular Zodiac - Record of Earth Pole Shifts

- The poles and Ecliptic coinciding means that originally the magnetic and geographic north poles coincided (as of course the magnetic and geographic south poles coincided); i.e. the earth is now unnaturally upside down and off-axis. Remember that the “plane of the Ecliptic” represents the magnetic poles which are "off axis" 23 degrees from the revolving geographic pole axis plane. The North Pole is magnetically negatively charged since the positively charged end of a compass points to the North Pole and opposites attract.
- Winter soltices in the Northern Hemisphere of which ancient **Egypt/Kemit** belongs now have sun risings in Capricorn, not Cancer as in the Dendera Zodiac!

“As asserted by the Egyptian Priests to Herodotus, who was informed that the terrestrial Pole and the Pole of the Ecliptic had formerly coincided, thus was it found and corroborated by Mackay (“The Mythological Astronomy of the Ancients Demonstrated”). ‘Capricorn is represented at the North Pole, and Cancer is divided, near its middle at the South Pole, which is a confirmation that originally they had their winters when the Sun was in Cancer: but the chief characteristics of the {Zodiac} being a monument commemorating the first time that the Pole had been in that position, are the Lion and the Virgo.” (M. Blavatsky, ibid. pg. 431) **(emphasis added)**

- “On the Dendera Zodias the lion stands upon the Hydra and his tail is almost straight pointing downwards at an angle of 40 or 50 degrees this position agreeing with the original conformation of these constellations.”

**Virgo #1
Lion #1**

Lion #2

- “But in many places we see the Lion (Simha); MacKey adds with his tail turned up over his back and ending with a Serpent’s head; thereby showing that the lion had been "inverted" which indeed, must have been the case with the whole Zodiac and every other constellation, when the Pole had been inverted {shifted}.”

“Speaking of the circular Zodiac, the Virgin is nursing her child; but it seems that they had not had that idea when the pole was first within the plane of the Ecliptic: for in this Zodiac. . . we see three Virgins between the Lion and the Scales, the last of which holds in her hand an ear of wheat.”

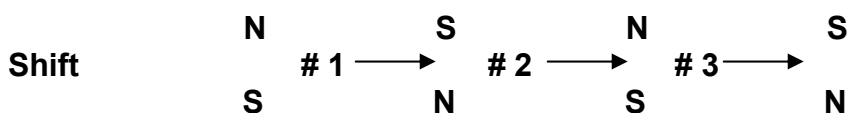

Virgo#2

Virgo #3

“.....the meaning is plain, as the 3 Zodiclas {concentric, one for each of 3 Virgos} belong to 3 different epochs. (M. Blavatsky, ibid, pg. 433)

Esoterically to be explained fully in Volume II, there have been 3 pole shifts:

corresponding to the 3 Virgos, accompanied by a deluge (flood and/or ice age). This explains the upside down, off-axis condition of the planet earth today!
