Dennis Ryerson
Editor in Chief
Indianapolis Star Newspaper
Indianapolis, IN.

Dear Mr. Ryerson:

The threatened loss of the US Senate seat of Evan Byah to the Republican Party is more than I can withstand so I have desperately composed the attached plea to the people of Indiana and to the people of America at large.

Please figure out a way to communicate in the Indianapolis Star that the politically weak and financially poor Rastafarian community is being persecuted by the Republican Party since their 1997 repeal of the **1993 Religious Freedom Restoration Act (RFRA)**. This was done from the political weakness of then President Bill Clinton from the impeachment process from the Monica Lewinsky oral sex scandal. The President had wisely directed this bill's passage to keep the **Drug War** from violating the human rights of religious groups who use so-called illegal narcotics specifically the Rastafarian and Native American Church communities.

My [Resume](#) is included. I also include the [Green Paper](#) which is my composition requiring \$540,000 in resources taking 24 months to complete as the first objective of our **United Nations Millennium Project** linked **2007 European Union Humanitarian Grant (EUHG)** mandate to assist the American government in improving its health care system. **Please note** that the [Green Paper](#) was instrumental behind the scene in the US Congressional passage of health care reform; in the **9/20/2010 CNN Wolf Blitzer Interview** announcement by American Ex-President Bill Clinton that he had made the vegan lifestyle change and will be used to spearhead our grassroots movement to lower the genocidal level of maternal and infant death in America's inner cities presented on <http://www.theuniversityofgod.org/Page20.html>.

It is ironic that the deceased Rastafarian and Reggae music star Bob Marley's youngest daughter residing in America is facing bankruptcy and a jail term for being a Rastafarian for the possession of marijuana plants in PA.

It is even more ironic because it was the Ancient Egyptian "School of On" Rastafarian spin-offs the Israelite Nazerites who raised John the Baptist who initiated his cousin Jesus Christ. Rastafarians are proto-Christians and are not drug dealers. Marijuana is not a drug and is not a narcotic but the sacramental herb of Rastafarians used for millenniums by African and Asian Indian mystics. It was the herb of choice by African derived slaves in America and is known as Black Indian Hemp in herb books as the [Indian Herbology of North America](#) herb book.

The esoteric history of Rastafaians is documented in our internationally acclaimed web site <http://www.theuniversityofgod.org> web pages 3a through 3e.

It should be made clear that the oil, pharmaceutical, chemical, meat, dairy and health care special interests who control the Republican Party fear not only the effective medical marijuana usage and cost effective industrial hemp usage but the vegan lifestyle as it is the unnatural consumption of animal meat as suggested in the [Bible](#) Genesis 1:29 that is behind 95% of the *chronic disease and syndromes* gripping the American citizenry.

Yet the change of medical marijuana, industrial usage of hemp and the vegan lifestyle benefits are inevitable. In the latter case the [American Journal of Cardiology](#) editor agrees and American Ex-President Bill Clinton lost 24 pounds and has reversed his cardiovascular heart disease completely from aboriginal Rastafarian knowledge and technology.

The **Republican Party** expansion of the **Drug War** with the 1997 repeal of the **1993 RFRA** to include Rastafarians has allowed their persecution, jailing, imprisonment and confiscation of assets and blockage of making a living that is an International Human Rights violation.

Sincerely,

George W. Singleton, III BA., HD., DD.
BRCA, Inc. President
State of the World Forum member # 20827
2007 and 2008 European Union Humanitarian Grantee
