

BASTARD TRENCHING THE DEEP BED

Dig a second trench next to the first one, throwing the topsoil and manure into the first trench. Work the subsoil in the bottom of the second trench. Dig a third trench and repeat the process.

MAKING THE PATH

As you dig, throw all pebbles and stones to the side of the bed. When you finish, throw the topsoil from the path-to-be back on top of the bed. Spread the stones evenly over the surface of the path.
