- (3) WHERE PEACEFUL LOVE REIGNED FOR HEAVEN WAS RIGHT THERE NEAR,
- (4) AN AVERAGE LIFE SPANNED ONE HUNDRED AND THIRTY YEARS;

#### FOOTNOTES:

- a** The aboriginal natural environment of humans is a sustainable agri-forest like the proverbial "Garden of Eden. Modern psychology knows the benefits of "horticultural therapy" to those with mental illnesses, physical illness and social dysfunctions as criminality and abusive behavior and abusive damage.
- b** Nature's Law of vegan/vegetarian diet, was the only rule in the Garden of Eden:
- (Genesis 1:11) "Then God said: Let the earth bring forth grass, the herb that yields seed, and the fruit tree that yield fruit according to its kind, whose seed is in itself, on the earth"; and it was so.  
(Genesis 1:29) And God said, See, I have given you every herb that yields seed which is on the face of all the earth, and every tree whose fruit yields seed, to you it shall be for food.  
(Genesis 2:16) "And the Lord God commanded the man saying, 'Of every tree of the garden you may freely eat;  
(Genesis 2:17) But of the tree of knowledge of good and evil you shall not eat, for in the day that you eat of it you shall surely die."
- Esoterically, the "tree of the knowledge of good and evil" symbolizes the life decision: to follow Nature's Law of vegan/vegetarianism or to of animal flesh eat and reap its penalties of loss of spirituality (God communion\ walks with God), poor health and higher chance of a shortened life span.
