

THE PURPLE SEAL:: *Breaking the Plague of Chronic Diseases and Syndromes:*

[Previewed and sold on www.books.google.com](http://www.books.google.com)

On July 6, 2010 the precursor of the [Purple Seal](#) called the "Green Paper" was made available to the *Ex-American President* Bill Clinton by fax to his wife *US Secretary of State* Hillary Rodman Clinton (the [Preface](#) herein includes the fax cover letter) with the recommendation that the [Vegan Diet](#) could reverse his death threatening cardiovascular heart disease.

On September 20, 2010 the *Ex-American President* Bill Clinton by the grace of the Most High God *Annu* announced during a Wolf Blitzer CNN Interview that he had lost 22 pounds and had completely reversed his cardiovascular heart disease.

No matter if you are a health professional or layperson; or have a college degree, high school degree or GED your reading the [Purple Seal](#) will not only allow you to totally understand the modern plague of *chronic diseases and syndromes* that has gripped America including the heart diseases, stroke, the cancers, diabetes, Alzheimer's, high blood pressure, liver and kidney diseases, obesity and metabolic syndrome but show you how to easily prevent them or ameliorate their effects.

The wisdom of the [Great Law of Human Vegan Diet](#) and the reality of the *human vegan genetic genome* can not be ignored and suppressed any longer as expressed in the [Bible Genesis 1: 29](#). The unfolding of the [Golden Age](#) on earth is dependent on your breaking the "Purple Seal" and achieving health and longevity.
