Dear Sirs and Madames:

Please find attached our latest [Press Release](#) and supporting documents in our struggle to get public opinion via mass media attention to recover \$350,000 in assets seized by the Indiana Court System illegally. To date we have been unsuccessful in getting our story and the threat of the ending of our Sustainable Agro-Forestry (SAF) garden work to the public at large.

I am State of the World Forum (SWF) Member # 20827 and a Rastafarian Priest heading a Chronic Poverty Reduction RD & D Center with the financial assistance of my Mother Louise E. Hall. Our Sustainable Agro-Forestry (SAF) Garden Model can significantly contribute to the poverty reduction goal of the United Nations to reduce by 500,000,000 people those living on \$1 or less a day by 2015.

We have come under increased economic destabilization and political harrassment since we presented this SAF Model to the State of the World Forum Sustainable Agricultural Round Table in Sa Francisco, CA in November 1997 as presented in detail on our web page www.hopelausa.org/page22.html.

We would appreciate any assistance especially sending our [Press Release](#) throughout your network as we need investigative journalists, lawyers, law students, philanthropists and social activists to assist us in whatever ways they can.

There are only 700,000 true Rastafarians world wide and here in America the Drug War has led to religious persecution and curtailment of our human rights centered on the USDOJ regulations and executive orders allowing the FBI and DEA immunity in regards human rights violations of Rastafarians and pseudo-Rastafarians with locked hair.

Yours in service,

George W. Singleton, BA, HD
BRCA, Inc. President
Operation Blackberry Patch Tri-Chairperson

State of the World Forum Member # 20827
