Dear Sir and/or Madame:

Since the June, 1997 repeal of the **1993 US Religious Freedom Restoration Act (1993 RFRA)** I have been targeted for extended **American Drug War** human rights violations and genocidal vectors documented in the attached file with further details on <http://www.thuniversityofgod.org/Page22.html>.

Since today the **UN/OHCHR** is reviewing the human rights record of the **USA** in its **Universal Public Review** first cycle it is requested my case be included in this review reflecting a continual human rights violation pattern taking the assets, blocking the livelihood and jailing and imprisoning the members of the small and politically weak Rastafarian community including now the youngest daughter of Rastafarian and Reggae Music Superstar Bob Marley residing in Pennsylvania facing bankruptcy and a jail term.

Of most serious urgency is the repair of the damage done by the **US/DOJ/Federal Bureau of Investigation (FBI)** that having refused to protect me from the obvious phony deed takeover of my modest \$200,000 non-profit religious organization **BRCA, Inc.'s** monastery headquarters and \$600,000 prototype sustainable agro-forest garden in 2005; turning around and confiscating on 1/28/2008 the \$310,000 check as a gift to pay the fee of the **European Union/Special Programmes Body** issued 2.3 M Euros **European Union Humanitarian Grant (EUHG)** as part of the **UN Millennium Project**.

I still have not received these funds and have been living under a bridge now for 18 months and carrying out the first objective of our **2007 EUHG** funded "**OBP**" **ISED** Project detailed on <http://www.thuniversityofgod.org/Pag18.html> to assist the American government improve its health care system. This is being accomplished with the \$540,000 and 24 months to develop **Green Paper** attached which identifies the cause of the **chronic diseases and syndromes** annually consuming 65% of America's health care expenses and **Maternal and Infant Death Intervention Project, Inc.** implemented on <http://www.theuniversityofgod.org/Pag20.html> addressing the genocidal level of maternal and infant death in America's inner cities.

It would be greatly appreciated if I and the rest of the small **Rastafarian** community in America could be relieved of the human rights violations and genocidal vectors stemming from America's extended **Drug War** since the repeal of the **1993 RFRA**.

Sincerely,

George W. Singleton, III BA., HD., DD.
