Office of the Prosecutor

International Criminal Court

2500 CM The Hague

The Netherlands

Dear Sir and Madame:

Please find attached an official request with documentation and a **Ninth Draft** of our **Legal Brief as Authentic Rastafarian Victims of America's Drug War** escalated with the **1997 US Supreme Court Repeal of the US Religious Freedom Restoration Act (RFRA) of 1993** which allowed the **American Drug War** to target **Authentic Rastafarians**. Because there are only as estimated 900,000 **Authentic Rastafarians** internationally we have little socio-political economic resources to protest this persecution

In 2005 our **Monastery and Poverty Reduction and Abatement RD & D Headquarters** was taken with a **phony deed** and in **2008** a good and valid grant check for \$310,000 from the **European Union/Special Programmes Body** headquartered in Monaghan, Ireland was confiscated under the slanderous charge it was "stolen."

By the grace of the **Most High God Annu I** and I am here in the Amsterdam area living under a bridge in order to participate in the investigation and trial if the **ICC** decides to initiate these proceedings.

Sincerely,

George W, Singleton, III BA., HD., DD.

BRCA, Inc. President, Founding Director

State of the World Forum Member # 20827

2007 and 2009 European Union Humanitarian Grantee

THE PURPLE SEAL:: *Breaking the Plague of Chronic Diseases and Syndromes: “The Great Pathophysiological Ramifications” of the Metabolisms of Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat in the Aboriginal Vegan Genome Human Body*

Abstract

This **Purple Seal** by America’s 2007 & 2009 European Union Humanitarian Grantee BRCA, Inc. points out that the 2009-10 historic public meeting debates and media analysis that finally led to passage of **Health Care Reform Legislation** by the US Congress, predictably omitted the **Health National Security Issue** that the **major cause** of the ever increasing health care costs in America is the failure to address properly the **complex etiology** of the **chronic diseases and syndromes**. The **key etiological role** of “**animal/dietary cholesterol metabolism**” including especially its derivative “**bile acid metabolism**” in the **chronic diseases and syndromes** was omitted. Included are those of the Heart, the Cancers, Stroke, Asthma, Emphysema, Bronchitis, *Diabetes Mellitus*, Alzheimer’s, Influenza, Pneumonia, the Kidneys, the Liver, Hypertension, Parkinson’s, and Septicemia. In addition, as **Amnesty International USA (AI-USA)** has identified America’s **genocidal rate of maternal mortality** as well its associated **genocidal infant mortality rate** should be added to the list for “**immediate amelioration.**” Please see the AI-USA **Press Release** as **Appendix I-1**.

Specifically, the **systemic causation** of the **chronic diseases and syndromes** is **Animal/Dietary Cholesterol and its related Animal DNA, Protein and Animal Fat residues** acting as “**slow poisons**” and simultaneously nutritionally supporting a **chronic colonic pathogenic anaerobic bacterial infection** and **chronic intestinal constipation** generating **blood transported organ inflammatory and autoimmune reactions** with **cellular, tissue and organ toxemic necroses** (deranged white blood cells and organ death), **mutagenesis** (DNA genetic damage), **atherogenesis** (artery clogging and deformation), **cholelithogenesis** (gall bladder, kidney and urinary bladder stones) and **carcinogenesis (cancer)**.

This **Purple Seal** projects that since these **chronic diseases and syndromes** consumed in 2009 at least 65% of the nation’s annual \$2.5 Trillion health care expenditures that the just established **Health Care Reform Legislation** if implemented with proper **Sickness Prevention Education and Practice Incentives** would save hundreds of thousands of lives and reduce health care costs annually by **\$600 Billion by 2012**. This saving would result from a properly **sickness prevention educated public** from whom it is predicted a minimal ¼ of the nation’s people would make the properly informed **dietary lifestyle change decision** to avoid ingesting **Animal/ Dietary Cholesterol “pseudo” foods** and to practice proper body cleansing regimens to remove their unsanitary and pathogen supporting residues.

This **Purple Seal** invalidates the belief held by the **Congressional Budget Office (CBO)**, many health care industry experts and distinguished news media economic analysts that the **prevention of sickness component** by the just established **Health Care Reform Legislation** would not generate significant health care expenditure savings but instead would lead to further deficits.

Consequently, this **Purple Seal** proposes that since the previously requested convening of a **2010-2011 US Select Committee on Human Nutrition and Human Needs and/or US House of Representative/Ways and Means Committee Hearing** is **politically impossible now** that the **National Republican Party** has made the **US Congressional passing of the Health Care Reform Bill** a November, 2010 national election issue and repeal target; that the **White House Office of Health Care Reform** endorse a **Forum on American Maternal and Infant Mortality Etiology and Possible Solutions** sponsored by the **US/Department of Health and Human Services** and moderated ideally by **Dean Ornish, MD., Director, Prevention Medicine Research Institute** to address the complicated and controversial etiological roles of **Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat Metabolisms in the aboriginal vegan genotype human body**.

It is predicted that the result of such a **White House Office of Health Care Reform Forum** would be overwhelming bipartisan implementation of the presently bitterly opposed **Health Care Reform Legislation** and its **sickness prevention health education and practice incentives** that is **self-funding saving** minimally **\$600 Billion a year** by the public and its present political opponents.

The **National Security** relevance of this “**omitted health issue**” is based on the fact that the **ancient Roman Empire and the modern Great Britain Empire** fell in large part from within ignoring this issue of **breaking the law of nature in regards the aboriginal natural vegan (herbivore) diet of human beings presented in the Bible Genesis 1: 29 (King James Version):**

“**And God said, Behold, I have given you every herb bearing seed, which is upon the face of all the earth, and every tree, in the which is the fruit of a tree yielding seed; to you it shall be for meat.**”

The **Greek Father of Medical Writing Hippocrates VI of Cos (460 BC to 377 BC)** wrote the maxim:

“**Everyone has a doctor in him or her; we just have to help it in its work. The natural healing force within each one of us is the greatest force in getting well. Our food should be our medicine. Our medicine should be our food.** But to eat when you are sick, is to feed your sickness.”

THE PURPLE SEAL: *Breaking the Plague of Chronic Diseases and Syndromes: “The Great Pathophysiological Ramifications” of the Metabolisms of Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat in the *Aboriginal* Vegan Genome Human Body*”

THE PURPLE SEAL:: Breaking the Plaque of Chronic Diseases and Syndromes: "The Great Pathophysiological Ramifications" of the Metabolisms of Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat in the Aboriginal Vegan Genome Human Body"

PREFACE

NOTE: This 7/06/2010 cover letter to the Green Paper and Appendixes A-1, A-2 and E fax sent to the US Department of State Secretary Hillary Rodman Clinton resulted on 9/20/2010 with the American Ex-President Bill Clinton announcing during a CNN Wolf Blitzer's Interview that he had made the vegan lifestyle change and loss 24 pounds and his cardiovascular heart condition requiring open heart surgery in 2004 was completely cleared up. We give thanks to the Most High God *Annu* for its science of truth.

US Secretary of State Hillary Rodman Clinton
US Department of State
Washington, DC.
202-647-0244 fax

7/06/2010

Your Honor Secretary of State Hillary Rodman Clinton:

Please find attached the **Green Paper: Resolution of the American Health National Security Issue Omission: The Great Ramifications of Dietary Cholesterol and Bile Acid Metabolism.**

It is vital that you and your executive staff review this document immediately and develop the appropriate responses because of its following implications and applications:

- A. the implication that America is promulgating an unhealthy lifestyle that supports Iatrogenic death and poverty to the other industrial countries especially its allies;
- B. the implication that America is promulgating an unhealthy lifestyle that supports Iatrogenic death and poverty to the developing countries especially where significant development investments have been made;
- C. the implication that America's genocidal levels of maternal and infant death and morbidity could be ameliorated and improve its international standing in these regards;
- D. the implication that America will lose its international leadership if this identified "health national security issue omission" is not properly addressed from the deteriorated ability of the American youth to meet military service standards and scientific research, educational and employment opportunities; and
- E. The application of various resolution options to address the identified problem would strengthen America's ability to continue its international leadership with a healthier people.

Finally, the cardiovascular heart problems of your husband President Bill Clinton should be immediately reassessed knowing that Dr. Dean Ornish, MD. has definitively developed and authenticated that this condition can be reversed. His "Mostly Plants" editorial from the 2009 American Journal of Cardiology is also attached for your review.

Yours in service,

George W. Singleton III, BA., HD., DD.
BRCA, Inc. President
State of the World Forum Member # 20827
2007 and 2009 European Union Humanitarian Grantee

PS. Green Paper cited Appendixes and Flow Charts not attached can be complementary downloaded at <http://www.theuniversityofgod.org/Page8.html>.

PRESS RELEASE:

**An Author/Poet/Musician/Sustainable Economic Developer/Nutritional Herbalist/Gardener
George "Aakhun" W. Singleton, III BA., HD., DD.**

The CD-ROM THE PURPLE SEAL:: Breaking the Plague of Chronic Diseases and Syndromes: "The Great Pathophysiological Ramifications" of the Metabolisms of Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat in the Aboriginal Vegan Genome Human Body, ISBN 978-0-9741724-3-9 is the result of over 2 years of research, development and synthesis work requiring over \$540,000 in resources as a result of being selected as a 2007 (**2.3 M Euros**) and 2009 European Union Humanitarian Grantee where his initial target is assisting the American government in improving its health care system in harmony within the objectives of the United Nations Millennium Project (<http://www.theuniversityofgod.org/Page18.html>).

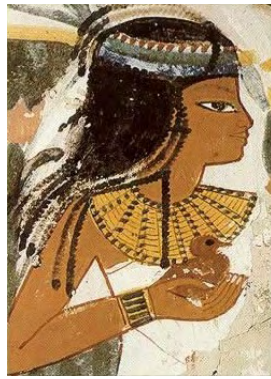

George *Aakhun* W. Singleton was born January 13, 1949 in Charlotte, North Carolina. Ethnically he is African American (Black) and Native American (Mississippi Choctaw\North Carolina Cherokee Indian) and African Moor; i.e. Black Indian or "Blacqendian." He is a graduate of Shortridge High School in Indianapolis, Indiana (1966) with major in science and minor in history in a college preparatory curriculum. He is a holder of a **Bachelor of Arts Degree (B.A.)** from the **University of Chicago** (1970), majoring in general biology/pre-medicine with a minor in history. He has also taken courses in biological medicine having matriculated in both dental and medical schools and systems analysis.

In 1986 he was given a **Doctorate in Herbology (D.H.) Degree** and a **Doctorate of Divinity (D.D) Degree** from the **International Monastery: The University of Eternal Light Consciousness** (Dr. Alfred "Roots" Patterson his apprentice mentor); Los Angeles, CA. based on his development work in "biological agriculture" and "nutritional herbology" applied to sickness prevention and cure, utilizing the ancient instrument the pendulum (today termed "radiesthetics/radionics") from Ancient Egypt/*Kemit* and documenting the origin of the "bio-intensive" gardening system of predynastic Egypt. He has demonstrated the reconstructive power of "experimental anthropology" reestablishing *Nutritional Herbology* of the **Ancient Egypt/Kemit "School of On (Annu or God)**. Singleton authored and published under the **BRCA/Enlightenment Publications, Inc.** in 2004 **The Egyptian Mystery School of On (Annu or God): Esoteric Atannulogy, Egyptology and Rastafariology, Volume I ISBN 978-0-9741724-0-8.**

Mr. Singleton has been forced by fate initially and later by his own design, to follow a self-taught "generalist" as opposed to "specialist" approach to education, occupation and personal growth endeavors. He has observed the Western culture's "divide and conquer" techniques are the basis to exploitation of native peoples (colonialism, neocolonialism and indiscriminate arms manufacturing and sales) and exploitation of nature (e.g. air, water, and soil pollution, humus top soil erosion, animal genocide). That is, fragmented "PhD. Specialist information" instead of holistic knowledge is the specific "divide and conquer" technique/medium used in the support of racism and other prejudices leading to the present "earth crisis" of fascism, environmental degradation, ignorance and hate threatening all life on planet earth.

In his latest work published today December 1, 2010 the e-Book **THE PURPLE SEAL:: Breaking the Plague of Chronic Diseases and Syndromes: "The Great Pathophysiological Ramifications" of the Metabolisms of Animal Dietary Cholesterol, Bile Acid, DNA, Protein and Fat in the Aboriginal Vegan Genome Human Body** Singleton has had to break through a quagmire of "PhD. Specialist information" in over 15 scientific disciplines to unmask that the over 70 years of recent suppression of the **Great Law of Human Vegan Diet** and the reality of the **human vegan genetic genome** can not be ignored and suppressed any longer as expressed in the **Bible Genesis 1: 29. According to Singleton the proper unfolding of the Golden Age on earth is dependent on at least ¼ of America breaking the "Purple Seal" and achieving health and longevity freeing scarce sustainable economic development resources for the rest of the planet in the next 10 years.**

THE PURPLE SEAL:: *Breaking the Plague of Chronic Diseases and Syndromes:*

Vegan Diet Ancient Egyptian "School of On" (Annu or God) Sun Goddess

"The Great Pathophysiological Ramifications of the Metabolisms of Animal Dietary
Cholesterol, Bile Acid, DNA, Protein & Fat in the *Aboriginal Vegan Genotype Human Body*"

By George W. Singleton, III BA., HD., DD.

2007 and 2009 EUROPEAN UNION HUMANITARIAN GRANTEE

On July 6, 2010 the precursor of the Purple Seal called the "Green Paper" was made available to the *Ex-American President* Bill Clinton by fax to his wife *US Secretary of State* Hillary Rodman Clinton (the Preface herein includes the fax cover letter) with the recommendation that the Vegan Diet could reverse his death threatening cardiovascular heart disease.

On September 20, 2010 the *Ex-American President* Bill Clinton by the grace of the Most High God *Annu* announced during a Wolf Blitzer CNN Interview that he had lost 24 pounds and had completely reversed his cardiovascular heart disease.

No matter if you are a health professional or layperson; or have a college degree, high school degree or GED your reading this book will not only allow you to totally understand the modern plague of *chronic diseases and syndromes* that has gripped America including the heart diseases, stroke, the cancers, diabetes, Alzheimer's, high blood pressure, liver and kidney diseases, obesity and metabolic syndrome but show you how to easily prevent them or ameliorate their effects.

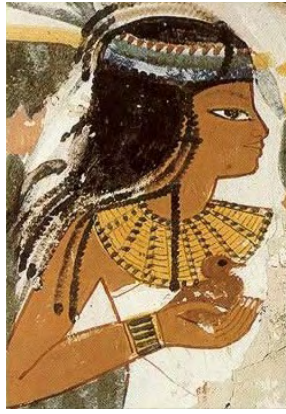

The wisdom of the Great Law of Human Vegan Diet and the reality of the *human vegan genetic genome* can not be ignored and suppressed any longer as expressed in the Bible Genesis 1: 29. The unfolding of the Golden Age on earth is dependent on your breaking the "Purple Seal" and achieving health and longevity.
